

Gemstones Collection

The rich and vibrant colours of gemstones, often known as nature's gift, inspire this collection.

Emerald (green), aquamarine (blue) and bixbite (red) are hand applied to the item prior to firing in the kiln resulting in a dramatic and indulging design.

Gemstones is as glamorous and polished in appearance as the minerals themselves.

Each piece of Poole Living Glaze is proudly made in England using traditional techniques, which have been passed down from generation to generation.

With Poole Pottery you truly are purchasing a collectable of tomorrow.
